

1. Name the parts of the axe...

2. List the safety rules:

Before you start to use the axe check:

- (a)
- (b)
- (c)
- (d)

You should wear:

- (a)
- (b)

The place you use the axe should:

- (a)
- (b)
- (c)
- (d)

You should not use the axe if:

- (a)
- (b)
- (c)
- (d)

When you stop using the axe:

- (a)
- (b)

1. Name the parts of the axe...

2. List the safety rules:

Before you start to use the axe check:

- The axe is sharp.
- The head is firmly attached.
- The haft is not split or damaged.
- The wood you are going to chop has no nails or wire in it.

You should wear:

- Strong shoes or boots, to protect your feet.
- Remove any hats, scarves, gloves or loose clothing.

The place you use the axe should:

- Be roped off, and clearly marked as a chopping area.
- Be level ground.
- Have no overhanging branches, ropes etc.
- Contain a solid chopping block, fixed in place with pegs if necessary.

You should not use the axe if:

- Anybody comes too close, they should stay at least three arm and axe lengths away.
- It starts to get dark.
- It starts to rain or is already damp and slippery.
- You are tired, because that's when you make mistakes. Stop before you get tired.

When you stop using the axe:

- It must be masked, either in a log or with a cover for the head.
- Clear up all the chippings you have made and return unchopped wood to the woodpile.
